

Introducing MIPS Solutions™

A partnership to help you succeed with MIPS

Midwest AAOE has partnered with Mingle Health to bring you industry leading Medicare quality reporting products and services for MIPS and the Quality Payment Program.

An industry leader in quality reporting, MIPS Solutions brings together expert Consultants and Cutting Edge Tools to guide you every step of the way to succeed with Medicare quality reporting programs.

Avoid penalties and earn incentives under the Quality Payment Program

In 2018, it's easy to avoid a penalty and most practices will be able to earn an incentive and potential bonus. You can trust MIPS Solutions™ to guide you every step of the way with a solution tailored to your needs.

Manage all components of the program in one place.

Our tools help you track the status of your reporting and stay informed about your progress.

Understand the measures that are best for you and your practice.

Use our analyzers and guides to make an informed decision about the measures most applicable to your organization.

Analyze and track your performance.

Review performance by practice and provider continuously, quarterly, or annually. Extend your reporting capability with data integration.

Send your data to Medicare for all programs and payment models.

- Qualified Registry for QPP (MIPS & APMs)
- Data Submission Vendor (DSV)
- ACO Reporting

Visit our website for full product features and descriptions. You can also learn about our optional products and services including consulting services, integrated data solutions, and custom education programs.
