

# CareMOSAIC: The Ultimate Value-Based Care Solution

Signature Care Management is a leader in the transition to value-based care through innovative care delivery models and data analytics. We provide expertise in episodic care management for healthcare organizations and physician groups to improve the quality of patient care while reducing costs. Signature Care Management provides comprehensive services and episode management strategies to maximize success in healthcare redesign efforts.

## PROBLEM

Data analytics are essential to be successful in value-based healthcare initiatives and actionable reports are necessary for making good decisions. In the evolution to value-based healthcare delivery, providers need software that includes assessments, care plans, and real time data to manage patient care.

SMG realized early on they, and we, needed and all would benefit from a user friendly, comprehensive BPCI analytic and case management reporting tool. It didn't exist, so they built it. They hit a home run with CareMosaic. We all know physicians need, want, rely on excellent reliable data. So do we.

## RESULT

To address these critical issues, we developed CareMOSAIC, a case management and data analytics software tool. CareMOSAIC has fostered significant outcomes to improve quality of care and reduce cost.

Signature responded to a need to create a platform for ease of use for nurse navigation. They continue to refine their platform to accommodate the needs of the end user. The ease of reporting data with Mosaic scorecards to physicians was a huge time saver.

## SOLUTION

CareMOSAIC provides real time data & data analytics to ensure success in value-based care. This platform allows providers and administrators to access standardized patient assessments and surveys, manage risk stratification, develop and record care plans, increase patient engagement, and review post-acute care trends and outcomes.

Signature IT staff have healthcare backgrounds. They are experts in PAC data analysis and interface between PM/EHR and CareMOSAIC. With Signature, you can securely access payment files and reports anywhere with our web-based platform.

Signature Medical Group has been a key partner helping Coastal Orthopedics enter the world of value-based care. The data analytics capability, most recently through the implementation of Mosaic, has been vital to our understanding of the costs associated with our services. This is the first time we have had good data regarding discharge location, length of stay, readmissions, and other metrics regarding post-acute care. This data has helped us develop and manage preferred post-acute networks. It has also helped us engage our physicians in participating in this process. We have been able to direct our physician and staff education regarding best practices and case management, and have achieved a high degree of success with the BPCI program.

**Data reports we provide can be manipulated by the user to generate graphical high level reports for strategic decision making and to take actionable next steps. We can re-group and filter data fields to tailor reports. Other features include:**

- ▶ Patient Reported Outcomes (PROs): PROMIS 10, HOOS/KOOS JR, VR-12
- ▶ Custom clinical protocols to meet Quality Measures
- ▶ Multiple risk assessments for patient optimization and individualized clinical decision making
- ▶ Enhanced patient engagement and education tools coming soon
- ▶ Interactive data reports to provide actionable steps and guide strategic decision making
- ▶ Integration of financial analysis, clinical expertise, and evidence-based best practices
- ▶ Alignment of clinical and financial outcomes
- ▶ Real-time analytics to assess utilization trends
- ▶ National benchmarking of Key Performance Indicators
- ▶ A team of Clinical, Financial, and Technical experts
- ▶ Flexible platform, adaptable for any workflow
- ▶ Effectively meets episode management needs in an ever-changing clinical health landscape
- ▶ Web-based real-time reporting, accessible from any device
- ▶ Secure HIPAA Compliant Cloud Platform
- ▶ Mobile app for Apple and Android phones

dh DECISIONHEALTH®

# Platinum Awards

*The Bundled Payment team at Signature was honored to receive The 8th Annual Decision Health Platinum Award recognizing our custom case management software solution, CareMOSAIC. The 8th Annual Decision Health Platinum Award recognizes individuals and organizations across the country for their success in improving healthcare delivery by empowering patients, improving patient care, and reducing costs.*
